

**Figure J-1.** Map of the Wolf River drainage and vicinity, showing localities mentioned in the text.

**Figure J-2.** Non-metric multi-dimensional scaling ordination plot of site scores for the electroshocking dataset. Circles indicate main-channel sites and triangles off-channel sites. The species names identify those fishes with the strongest correlations with the site scores.

**Figure J-3.** Non-metric multi-dimensional scaling ordination plot of site scores for the seining dataset. Circles indicate main-channel sites and triangles off-channel sites. The species names identify those fishes with the strongest correlations with the site scores.
